15A NCAC 18A .1003 INVESTIGATION AND APPROVAL

(a) The sponsor of a proposed site for a summer camp may make an advance appointment with a sanitarian from the health department of the county in which the site is located for a joint visit to the site by representatives of the sponsor and the health department. During the site visit, the sponsor's preliminary plans for development of needed structures and facilities will be evaluated, including water supply, sewage disposal, swimming facilities, solid waste disposal, and insect and rodent control. If it is determined that the proposed site and facilities, if properly developed and operated, will comply with this Section, the sponsor should proceed to develop final plans and specifications.

(b) Plans and specifications for camp buildings and equipment, water supply system, sewerage system, and swimming pool or other swimming facility shall be submitted in duplicate to the health department of the county in which the site is located. Permits or transitional permits are issued by and inspections made by the Department.

(b) If camp food service is provided by a caterer, the overall responsibility for food service sanitation remains with the camp management.

(c) Upon transfer of ownership of an existing summer camp, the Department shall evaluate the facility to determine compliance with the rules. If the establishment satisfies all the requirements of the rules, a permit shall be issued. If the establishment does not satisfy all the requirements of the rules, a permit shall not be issued. However, if the Department determines that the noncompliant items are construction or equipment problems that do not represent an immediate threat to the public health, a transitional permit may be issued. The transitional permit shall expire 90 days after the date of issuance, unless suspended or revoked before that date, and shall not be renewed. Upon expiration of the transitional permit, the owner or operator shall have corrected the noncompliant items and obtained a permit, or the summer camp shall not continue to operate.

- (8) Any other conditions necessary for the summer camp to remain in compliance with this Section.

(e) A permit or transitional permit shall be immediately revoked in accordance with G.S. 130A-23(d) for failure of the facility to maintain a minimum grade of C. A permit or transitional permit may otherwise be suspended or revoked in accordance with G.S. 130A-23. A new permit to operate shall be issued only after the establishment has been reinspected by the Department and found to comply with this Section. This reinspection shall be conducted within a reasonable length of time, not to exceed 30 days, after the request is made by the operator.
