If no authorized environmental health specialist is available in the applicants department the regional specialist shall find an alternate location for this training. The local health directors of both health departments will be involved in the negotiations concerning time and location for the training.

4. The supervisor shall supply the applicant with the necessary equipment to enforce the laws and rules and assure that the applicant is familiar with the use of all equipment.

5. The supervisor shall assign the applicant to an authorized REHS for practice of skills and knowledge in the following specific areas; inspections will be carried out at each of the following types of establishments:

   • Food Service (30)*

   Establishment categories marked with an "*" must be inspected with these minimum numbers. The establishment types without an "**" are recommendations only.

For each establishment evaluated, the following file shall be developed for review and comments made by the supervisor. The file is to be forwarded to the regional specialist by the applicant when the request for delegation of authority is made. The file shall be organized. Inspection forms filled out by the applicant and the authorized REHS shall be together. It shall include:

A. A copy of this document, Food, Lodging and Institutions Authorization Procedures.
B. Each establishment inspection form as specified in PRELIMINARY ACTIVITIES #5 and FIELD PRACTICE AND REVIEW.

1. The supervisor or their authorized designee will make the necessary number of inspections with the applicant. In the beginning of the practice work, the applicant and the authorized REHS shall complete independent inspection forms. The applicant and the authorized REHS will discuss both inspection forms upon completion of each inspection in the absence of the operator.

2. After at least 15-25 inspections (filled out separately from the authorized REHS), the applicant should take the lead role in conducting the inspections, writing up the inspection and discussing the findings with the operator. The authorized REHS shall review and concur with the findings documented on the inspection form. The final score may be discussed and agreed upon by the authorized REHS and the applicant. The final determination of the score is made by the authorized REHS. The forms shall be signed by both the authorized REHS and the applicant. The applicant should be able to discuss, explain and recommend the appropriate correction of violations.

3. Joint inspections are continued until the applicant is comfortable conducting inspections. The applicant must be able to identify violations, discuss the needed corrections with the operator, complete an inspection form, and review the inspection form with the operator. Only one inspection form is completed at this point. The authorized REHS will provide assistance and guidance to the applicant as needed until satisfied that the applicant is proficient in conducting inspections in the various types of establishments.

The inspection forms shall be signed and dated by parties present during the review.

5. During the necessary inspections, if at least one intent to suspend and one transitional permit are not issued, a mock notice of intent to suspend and a mock transitional permit shall be completed by the applicant. The mock permit action shall be done onsite at one of the 30 food service establishments or one of the three lodging establishments. If at least one Product Disposition Form is not filled out, a mock form shall be completed by the applicant. For all Critical Violations deducted on the inspection forms there shall be documentation of the type of correction. The evaluations may be conducted at any location with an on-site water supply and wastewater system.

   A review of the records on file and a site visit shall be made for each evaluation. A water sample shall be collected at each of the sites visited. An inspection form for each site visited shall be completed by the applicant and reviewed and co-signed in the field by the authorized REHS. Complete three of each form: Pre-occupancy Evaluation Report of Drinking Water Supply and Wastewater Facilities for Migrant Housing.

7. When all requirements have been met and the supervisor determines the applicant has progressed sufficiently to work independently, the applicant may apply for authorization.
DISCLAIMER: If upon reviewing the file, the regional specialist finds that the applicant needs additional practice, the evaluation for authorization may be postponed until that practice has taken place. To make the best use of everyone’s time, it is the supervisor/health director’s responsibility to see that the applicant has sufficient field practice to prepare the applicant for authorization. Inspections submitted for this review must have been completed within the last 12 months. Inspection forms beyond 12 months will not be considered by the regional specialist.
