Re: UL and CSA approvals and immersion of switch housing

MDI, Inc.'s Vertical Float Switch has both component recognized UL approval (file # E-93774) and CSA approval (file # LR41198). Future shipments of verticals will have appropriate logo's on the labels.

The MDI, Inc. Vertical Liquid Level Control Switch may be immersed, as necessary, in liquid up to 140 degrees F/60 degrees C.

Any further questions, please feel free to contact us.

Regards,

Mike Brewers
