Subject: Approval of RK Flow Equalization Panel

Dear Mr. Chandler:

On November 8, 2004, we received the submittal package for the RK Control Panel to be used with Flow Equalization. On July 8, 2005, we completed inspection and testing for the control panel and found that it meets the requirements of Innovative Approval #IWWS 2004-01.

Therefore, we approve the following four models of RK flow equalization control panels:

RKSP115CB-133	(115 volts, 1 phase with circuit breakers)
RKSP230CB-125	(230 volts, 1 phase with circuit breakers)
RKSP115CB-134	(115 volts, 1 phase with circuit breakers)
RKSP230CB-126	(230 volts, 1 phase with circuit breakers)

Please be aware that these panels are subject to periodic inspections, and should units be found to be in noncompliance with the submission or Innovative Approval, then the approval may be suspended or revoked. Please feel free to contact me if you have any questions pertaining to this approval.

Sincerely,

Tricia Angoli
