

I&E Committee Meeting Notes
November 6, 2007

Present at the meeting:
Tom Konsler, Chairman
Tim Bannister
Everett Coates
Toney Jacobs
Wayne Jones
Jim McSwain

The meeting notes from the October 2, 2007 meeting were approved.

Old Business

Aquaworx/ISI: Remediator Experimental Approval (Dave Lentz)

- The approval should list the system classifications and ORC frequency in visits
- Text should be revised to allow for the unit to be placed in both single compartment and dual compartment septic tanks, with the unit placed at the outlet end.
- Any risers added to tanks would need to meet pump tank riser standards
- A better explanation needs to be provided for the statement about homeowners removing effluent filters and how that applies to the approval
- Effluent sampling is only to verify that the effluent quality will not be detrimental to the drainfield
- On page 3, number 9 at the top of the page, should be changed to “modification will be reviewed and approved by the Dept”
- Clarification on any tank modifications needs to be provided
- Clarification on items F.6, C.2, C.3.a, C.4.a, and the last paragraph in C.4
- Clarification of who administers checklist
- Committee recommended draft approval go back to the subcommittee, with discussion of changes and then come back to the full Committee for review

New Business

RING Industrial: Modifications to Accepted Approval (Ben Berteau)

- Comments should be submitted to Steven regarding any edits or corrections needed in the draft approval
- Committee voted to recommend approval to Section for the 5 foot bundles and the geotextile fabric at the top of the bundle, with Wayne Jones abstaining from voting

Updates

ADS

- Has submitted an application for accepted system status

EZ Drip System

- Thirty days posting is finished, will be going to Terry for signature
